I have lived at 3310 Pine Ave since 2009 and during rainy season over the years the slope behind my house is washing away and the dirt slides down from the alley behind and above us. The alley is eroding and there is a power pole at one end that can eventually come down onto my house or my neighbors.

A few years ago my neighbor to the left got his section fixed.

A year later someone came by and said the alley had been approved to be completely repaired and it didn't happen.

It is definitely a safety issue and we are all concerned on both sides of the alley.

Please take these houses into consideration. This is where we call home.

Thank you very much.

Maria Miller

Dear Councilwoman Saro,

My name is John Petty, I live at 3332 Pine Ave. I have owned my property for about 40 years. About two years ago some city people came by and tore down my fence that abuts Crest alley. Later, Edison came by and tore up a different section of my fence when they replaced a power pole. All of my neighbors have had problems with the dirt alley which has not been maintained.

My neighbors and I urge you to vote in support of improving the alley and restoring the fences that have been damaged by the city, and to install gates at both ends of the alley.

Best regards,

John Petty
c/o Carlos Ovalle

Hello,

I am in favor of improving/ fixing the alleyway between Crest Dr and Pine ave.

I live on the north end of Pine Ave.

The water from the alley has always been a problem, running down our back hill.

The past couple years the very heavy rains have funneled so much water down our back hill that it pools up on the flat areas adjacent to our house. The water can not drain off my property fast enough.

This year the recent rains are so bad that it has created water damage and mold on my back bedroom wall, closet to the alley.

Thank you,

Scott Shelton
