Subject: 6700 PCH Long Beach

-EXTERNAL-

Dear Decision Makers:

In October 2023, the Coastal Commission denied the appeals and approved the construction of a 120 foot residential/commercial building at 6700 E. PCH. Tomorrow, the Long Beach City Council is being asked to:

Item 7. Recommendation to authorize the City Manager, or designee, to execute all documents necessary for a Right-of-Entry Permit with Holland Construction, Inc., for the use of City- owned property located adjacent to 6700 East Pacific Coast Highway for construction trailer staging and contractor vehicle parking purposes in connection with the adjacent development project, for a term of 30 to 48 months. (District 3) (see attachment)

One of the appeal issues was the building being within the SEASP designated zone of 100 feet of a wetland/waterway. In fact, in their report, CCC staff stated:

- ***Staff agree that the project should have a 100 ft setback from the river, rather than the proposed 76 ft setback....***

This right-of-entry permit will allow Holland Construction to destroy the remaining 76 feet of habitat and buffer zone from the San Gabriel River. Currently this city owned area contains trees and vegetation used by wildlife for foraging, nesting and roosting. Even if the property is restored on completion of the construction, wildlife will be deprived of this site for 30-48 months.

We urge you to deny this use of public property.
Ann Cantrell and Anna Christensen, co-chairs,

Honorable Mayor and City Council City of Long Beach
California

RECOMMENDATION:

Recommendation to authorize the City Manager, or designee, to execute all documents necessary for a Right-of-Entry Permit with Holland Construction, Inc., for the use of City- owned property located adjacent to 6700 East Pacific Coast Highway for construction trailer staging and contractor vehicle parking purposes in connection with the adjacent development project, for a term of 30 months. (District 3)

DISCUSSION

On April 18, 2023, the City Council denied an appeal of Planning Commission approval for the redevelopment of a 2.61-acre site located at 6700 Pacific Coast Highway, consisting of the demolition of all existing structures on the site and construction of a new mixed-use project consisting of 281 residential dwelling units, thirteen of which are affordable (very low income), 3,100 square feet of commercial/retail space in a building with 592,100 square feet of area including a minimum of 507 vehicular parking spaces, 142 bicycle parking spaces, and 27,534 square feet of common and private open space area (Project). Upon City Council determination, the developer of the Project, Holland Construction, Inc. (Permittee), reached out to the City expressing a desire to utilize a portion of a City-owned parcel located at 280 Marina Drive (Subject Property), directly adjacent to the Project,

for the express purpose of construction trailer staging and contractor vehicle parking. The Subject Property measures approximately 20,436 square feet and contains greenspace and trees.

The Permit term will be for a period of 30 months, commencing on a date to be determined based on the readiness of the Project, which will be memorialized by the Permittee providing notice of its intent to begin occupation of the Subject Property. If the City has not received notice by July 1, 2025, the Permit will automatically terminate. If construction of the Project commences but is not completed within the 30-month term, the Permit will automatically extend on a month-to-month basis, but in no event will it extend beyond 48 months. The Permittee may also terminate the Permit at any time with 30 days' advance written notice. The Permittee will pay an occupancy fee of \$6,131 per month, pro-rated daily for any partial occupancy month. The Permittee shall not use the Subject Property for any other purposes and will be required to protect the trees in place during its use and restore the property back to its original condition upon completion.
