Please stop sidewalk vending!!

We have 2-3 taco pop-ups on Wardlow and Norwalk Blvd and 1 on Norwalk Blvd and Wardlow along with a drink vendor. It is a health hazard with no running water to clean up after themselves, food stuff dropped on the sidewalk, napkins, paper plates and plastic utensils on the sidewalk, in the gutters and blowing around the area. The sidewalk is stained black from grease and it smells like stale grease when walking by!

A better solution would be to provide an open area in parking lots or a special designated area where they can set up and be required to clean their spot before closing for the night!! Please, Please consider the residents that have to walk through or drive by the mess they leave in our neighborhoods!!!

Dear Council,

you decided to create an ordinance to protect street vendors and their clients.

Many people filled out paperwork and paid the vendor fee to comply with the new law.

It is totally unfair street vendors who have not complied get away with it.

I have personally reported two specific ones over and over and they have never been fined.

Other we start fining illegal vendors or all the work done to implement a new law has been a failure and a waste of time and money.

Melvin Ramos
