Dear Long Beach City Clerk,

I'm writing to submit public comment for Long Beach City Council Meeting.

On November 19, 2024 LBPB killed Brandon Boyd when he was asking them for help. They never utilized the city mental health professional who was on the scene the entire time. They instead called SWAT, deployed a flash bang, and then opened fire on him as friends and family looked on.

This is disgusting and none of the city or police department's excuses are adequate. This was an unnecessary murder that could have been avoided by providing care not violence. Shame on LBPB.

I'm writing to uplift Brandon Boyd's family's demands:

1. Release the 911 call recording that led to the incident.
2. Release the names of the officers who killed Brandon.
3. Drop all charges against the family members.
4. Charge the officers for murdering Brandon Boyd.

Sincerely,
Sarah Bowers
