Subject: Budget Oversight Committee Items 2 and 4 and City Council Items 17, 17.1, 17.2, and 17.3. - FY25 Community Violence Intervention (CVI) Budget Recommendation for Safer Communities in the City of Long Beach

-EXTERNAL-

Hello City Clerk,

The letter below is intended for both the Budget Oversight Committee on agenda items 2 and 4 and City Council agenda items 17, 17.1, 17.2, and 17.3.

Thank you.

September 10, 2024

Dear Mayor, Councilmembers, and City Manager:

Mayor Rex Richardson
Mary Zendejas, 1st District
Cindy Allen, Vice Mayor, 2nd District
Kristina Duggan, 3rd District
Daryl Supernaw, 4th District
Megan Kerr, 5th District
Dr. Suely Saro, 6th District
Roberto Uranga, 7th District
Al Austion, 8th District
Dr. Joni Ricks-Oddie, 9th District
Thomas B. Modica, City Manager

The One Long Beach CVIPI Collaborative and The City of Long Beach Advancing Peace Steering Committee appreciates the one time use budget proposals of \$100,000 from the Mayor and \$200,000 from the City Manager to be directed to the Health Department's Violence Prevention Programs. While we appreciate the \$300,000 one-time use investment in the FY 25 Budget, it is a reduction in spending on violence prevention programs within the Health Department from the FY 24 budget period.

After conducting a violence prevention and intervention programs cost analysis the amount needed for a robust and comprehensive public health-focused approach to community-based violence intervention and Prevention (CVIP) Programs within the Long Beach Health Department is 15 million-dollars.

A 15-million-dollar investment would strengthen evidence-based programs such as but not limited to;

- 1 million dollars for Health Department's Violence Prevention Programming
- 1 million dollars for Violence Prevention Community Activations
- 1.5 million dollars for Long Beach School Safe Passage Strategies
- 1 million dollars for Summer Park Safety Initiatives or Be S.A.F.E.
- 2 million dollars for Violence Prevention Trauma Prevention Initiative in partnership with LA County Office of Violence Prevention
- 3 million dollars for Long Beach Activating Safe Communities

- 3.5 million dollars for Increased Black, Indigenous, Latinx, Cambodian, Pacific Islander and Disabled Children and Adults programs
- 1 million dollars for Reentry Integration Programming & Services
- 1 million dollars for Hospital-based Violence Intervention & Prevention

We are calling you all our violence prevention champions on the City Council, and in the Mayor and City Manager offices to make a recommendation to increase the proposed \$300,000 to \$1,200,000 to maintain the impactful violence prevention programs. At the same time, we are partnering with city leadership to identify structural funding revenue for the Health Department to sustain these and other programs outside of one-time use funds, such as an Unhealthy Food and Soda tax.

The \$1,200,000 investment would sustain evidence-based programs such as but not limited to;

- 300 thousand dollars for the current Health Department's Violence Prevention Programming proposal
- 300 thousand dollars for Violence Prevention Community Activations
- 600 thousand dollars for Long Beach School Safe Passages

The One Long Beach Community Violence Intervention and Prevention Initiative (CVIPI) Collaborative and The City of Long Beach Advancing Peace Steering Committee are respectfully recommending for the following:

I. Increase the proposed \$300,000 to \$1,200,000 to maintain the impactful violence prevention programs while we partner with city leadership to identify structural funding revenue intended towards the Health Department to sustain these and other programs outside of one time use funds. Such as an Unhealthy Food and Soda tax.

II. Structural violence prevention and intervention program funding and investments of 15 million dollars will:

- a. Include evidence-based, data-driven, and culturally centered strategies in geographic historical, disinvested communities of color
- b. Prioritize hotspot neighborhoods and zip codes (e.g., 90802, 90804, 90805, 90806, 90810, 90813)
- c. Engage culturally appropriate representatives of communities of color
- d. Include lead agencies that possess a minimum of 3 - 5 years of CVI experiences and a track record of demonstrated effective outcomes
- e. Engage trusted organizations and leaders with lived experiences
- f. Prioritize transparency and an inclusionary process for organizations to apply for violence prevention and intervention funding

III. That the City of Long Beach Mayor, Councilmembers, and City Manager support community-based organizations and leaders in violence prevention by collaborating on a strategic initiative emphasizing the importance of these initiatives' impact, fidelity, and sustainability.

We look forward to solidifying a valued partnership between the City of Long Beach and community-based organizations that can be instrumental in enhancing and supporting community violence intervention and prevention funding, programs, and resources.

Sincerely,

One Long Beach CVIPI Collaborative and The City of Long Beach Advancing Peace Steering Committee Partners

The One Long Beach Community Violence Intervention and Prevention Initiative (CVIPI) Collaborative has an extensive history of violence prevention and intervention initiatives and experiences in our community. This initiative seeks to prevent and reduce violent crime in communities by supporting comprehensive, evidence-based violence intervention and prevention programs based on partnerships among community residents, local government agencies, victim service providers, community-based organizations, law enforcement, hospitals, researchers, and other community stakeholders. Given our success in addressing violence, the revived strategy must produce a more robust system to tackle the political, economic, and social determinants of violence in the City of Long Beach. We would be remiss if we did not utilize this opportunity to reframe expectations for budgetary outcomes from the viewpoint of violence prevention.

One Long Beach CVIPI Collaborative Partners:

September 3, 2024

Dear Honorable Mayor and City Council,

Below is the speech I, Sashi Muralidharan – IAM Business Representative, gave on behalf of city employee/IAM member, Kim Vuong, who could not attend due to medical treatments she was receiving. Treatments due to her being a resident Living with Disabilities. Councilmember Al Austin, who was chairing the meeting, suggested I submit her speech for the record.

Please accept my submittal of Kim Vuong's impactful speech.

Good evening honorable mayor and city council. I am not able to be in person. My name is Kim Vuong and I am one of the disability advocates in the public health emergency management department. I would like to speak about the importance of representation and how it matters when it comes to emergencies.

During the COVID pandemic, many government agencies including Long Beach did not initially emphasize providing services for people living with disabilities of which I'm one. This void hurts our vulnerable community because we were left without support. However, people like me were eventually brought on to bridge the gap in services for this population, residents living with disabilities. In my role as Disability Advocate for Disability Access and Functional Needs, I've helped many who were struggling with basic needs. These needs don't dissipate with funding cuts. Those needs remain. With my position facing cuts, this population is put at risk.

People living with disabilities have lived experiences that are needed in public health to ensure that individuals living with disabilities continue to have their needs met. I am asking the council to find funding to keep mine and other important positions employed.

Regards,

Sashi Muralidharan

Mr. Sashi Muralidharan
