Attachments: 6_updated Cost Breakdown of Proposed Project-2 - Copy.pdf

Hi Tatiana,

Thank you for your quick response, we will add this to the agenda for the HSAC meeting on August 07, 2024 for approval on the updated Budget for \$5000. This item will be number 2 on the agenda, do not feel compelled to stay for the entire meeting if you are not able to. We understand your time is valuable and we want to be considerate of that.

I have added you to the calendar invite, please let me know if you have not received.

Thank you.

Thank you very much for getting back to us! I appreciate us moving forward with this proposal.

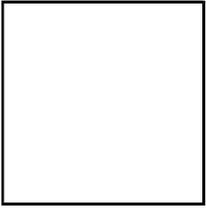

I agree with moving forward with this redrafted proposal and appreciate the hard work and effort put forth by your team. Please understand that we are not questioning the tremendous effort already invested in this project. Our suggestions come from a place of wanting to maximize the support for our community.

As our name suggests, Urban Social Services and Advocacy, we always strive to advocate for our community. With that in mind, could we adjust the budget to allocate \$1,500 each for vocational training and groceries, and \$2,000 for clothing? Additionally, can we include language to cover court-ordered or probation/parole-required classes? This would help individuals who need to take SUD or DV classes and require start-up or intermittent assistance to avoid violating the terms of their agreements. I would also like to include bus passes and transportation if possible. This is a HUGE issue for the un-housed and low-income community, especially when trying to secure employment.

However, it ALL helps. We will utilize the funding as it is allocated. I'm just thinking about our current work and the biggest hurdles people face based on our experience.

Thank you again, and we will be able to attend the meeting!

We are happy and excited !

On Jul 30 2024, at 10:42 am, HomelessServicesAdmin <HomelessServicesAdmin@longbeach.gov> wrote:

Good Morning Tatiana,

Thank you for your patience as we go through the Mayor's Fund review process.

The subcommittee met yesterday and determined that they would like to move the application forward to the larger Homeless Services Advisory Committee meeting, with a few changes to the budget.

The updated budget includes \$1,000 for vocational training classes, \$1,000 for emergency grocery assistance, and \$3,000 for clothing.

If approved by the larger HSAC, the total grant would be \$5,000; of which \$2,500 would be advanced pay and the remaining would be released upon proof of invoices for the full amount.

In addition, applicants are requested to attend the larger HSAC meeting, to help address any additional questions the members may have. While it is not necessary to stay for the entire meeting, you are welcome to do so if you are able to. At the meeting, questions that you should be prepared to answer are

1. What is the sustainability plan outside of the 3 months of requested funding?
2. Do you have any proof of contracting/subcontracting? And if possible, please submit an income statement.

Our next HSAC meeting will be on Wednesday August 7th, 2024

Location: 4811 Airport Plaza, Long Beach, CA 90815

Time: 3:30-6:00pm

Please let us know as soon as possible if you can be present, as we will need to agendize the item by the end of the week.

Thank you,

Jennifer Santana

I won't have time for a phone call unfortunately, so let me try to answer these questions to the best of my ability right now.

And just in case, so you're not confused this is Tia with Urban Social Services and Advocacy but you addressed it to Cloud. I know Claude that's a different Organization lol.

1. What is USS&A'S history of providing services in Long Beach?

For the past four years, Urban Social Services and Advocacy, formerly known as Caravan 4 Justice, has worked on numerous campaigns within the city. In the beginning, we focused on advocacy predominantly. And worked with different city officials to implement programs like crisis intervention services and working on the people's budget, voter education, and everything I had to do with educating people on city politics, and how the city was run. During that time, we did a lot of mutual aid as well and realized there was a significant need for organizations that had fewer barriers restricting people from successful outcomes. So we transformed into Urban Social Services and Advocacy and are now focused on providing services such as wraparound services, Advocacy, community support, reentry services, Case Management navigation, wound care, Mutual aid, Narcan distribution, mutual aid, harm reduction education, and distribution. We do DMV verification for low-income, we do housing navigation, peer support, and client advocacy, we sign people up for the Cal Kids savings account, we also help people start businesses, reentry life skills training as well as mental health navigation, human rights consulting, enhance case management and community health worker support. This has been our predominant focus for the past two years. The services are all available to Long Beach and we work with different organizations within our network. We are on several different committees, but it in Long Beach. We are a part of the Reentry advisory committee and continue to advocate on all sides of thee

spectrum. So we have been providing community services for the past four years in different capacities however, our focus now is on whole person, care, and being a part of that continuum of care.

2. What are the Long Beach-specific programs you offer?

Wraparound services, Advocacy, community support, reentry services, Case Management navigation, wound care, Mutual aid, Narcan distribution, mutual aid, harm reduction education, and distribution. We do DMV verification for low-income, we do housing navigation, peer support, and client advocacy, we sign people up for the Cal Kids savings account, we also help people start businesses, reentry life skills training as well as mental health navigation, human rights consulting, enhance case management and community health worker support.

3. Can you elaborate on how many people you are serving in the City of Long Beach, you previously mentioned quality over quantity, can you provide more context around this?

It depends on what you're asking us as far as who we serve. We serve more people in our mutual aid realm right now because we just received half \$1 million in Consulting grants from the DCHS and are going to be focusing on the training and program implementation and contracting from these consultants. As far as mutual aid we serve around 300 to 500 individuals a month depending on who comes. But no less than 300 a month. As far as all other services, I would say right now we're only serving about 10 to 15 people a month because we're a small nonprofit and everything is done from donations and due to the program implementation. We wanted to slow down from the 30 clients a month we were servicing.

4. What is the criteria for funding some of your clients?

They have to express an immediate need and back it up with proof. A lot of the clients we serve are already in transitional housing our part of a program so we help supplement and also support other people's programs by helping their clients get the things they need. So service providers often ask us or call us and say, hey can we help service their clients with different needs, such as bikes, so they can get to work, underwear and clothes, socks, shoes, work garments, etc. Because they know we have those things. We do have an assessment form people fill out to request services.

5. Can you touch more on what type of vocational training and SUD classes are offered and where do they receive these classes from the cost breakdown form?

On the cost breakdown, we were talking about helping people who are in SUD classes or vocational training that doesn't have to be through us. They could be through the Invest program or It could be from the Hope Center or a Transitional Living home or Volunteers of America. Wherever they're coming from, if they need help with classes such as paying the fees, joining them, or sustaining them, or if they

need equipment to be a part of a program, we can help with that. For instance, we had a client in Orange County who had mandatory DUI classes. He was un-housed and had already completed 1/4 of his classes.

However, he wasn't able to pay for the two upcoming classes, and he would've been kicked out. So we helped him pay for those two classes as long as he agreed he would be able to pay for the rest and stay in his classes. We paid for the class he was missing plus the class that was coming up so that he would not fall behind and continue his treatment. We help them find the classes they need and help them navigate the enrollment process. A big part of all social services is mental health. And sometimes people just need a little help to keep their minds going so that they can continue and not feel hopeless.

So, for a small price, we give people hope that somebody is there to support them and that we're not just an agency, but we are a community.

1. Can you clarify if the PO BOX 92544 Long Beach, CA 90809 address is used for mailing purposes only and the office that clients can receive services is at 3605 Long Beach Blvd #325 Long Beach, CA 90807?

Confirmed

1. Do you have any current partnerships with the City of Long Beach?

We work with the homeless services quite often and Stefanie, who is CCed on this email I'm still waiting for my water drop lol. I put in for one last week! Hit mee back!lol

but Juan can verify that we get pallets of donations from the city and distribute them monthly. We are currently working with the Health Department and we are on the Reentry Advisory committee. We are also part of the continuum of care for harm reduction and if you go on the Long Beach website, you will see that we are there as partners with you guys as someplace people can come for harm reduction, distribution education and to get materials.

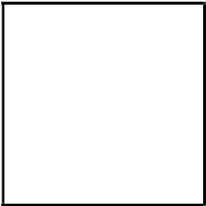

1. Can you walk us through what street outreach looks like for your team?

Street outreach for us is going to locations such as right by our office which has a high level of unhoused people. We often go over by Drake Park on Magnolia over by Martin Luther King Library in the north we also go down Long Beach Blvd closer to Seventh and 10th St. When we're by Drake Park we pull up and set up a table to serve food if we have that at the time. We put out tarps with clothing we go up and down the street let people know that were down there and to come to get what they need we walk up on the river bed to tell people to come to get what they need or do water drops.

We often go along the riverbed on Willow and other parts of the freeway as well as on Long Beach Blvd. Which has a high concentration and gets very hot over there. And we pass out things to unhoused people. Condoms, Narcan, harm reduction, food, clothes, hygiene kits, harm reduction kits, we give them care packages and we ask if they need help and get their info and follow up the next day for services like housing, probation advocacy, housing or if they are seeking treatment.

Sometimes we buy 20 pizzas and just go distribute to people, we like to do drive-bys and drive around those neighborhoods and catch people who are walking by themselves or pushing carts or sleeping in the corner of buildings and try to reach out to them and see if they need services. We also collaborate with other groups who do mutual aid and different services and accompany them on their mutual aid endeavors. We try to build community and build trust with people, so that when they see us, they will actually want services and want help. Not just a hand out.

Our outreach also is independent as we all carry kits in our cars so when we see people with signs in the middle of the street or if we see people at different locations we go to we can give them things and give them a card or flyer to reach out if they need services. We've partnered with some security guards from CSI and drop off kits to them so that they can give it to their unhoused people who frequent different locations. Like liquor stores, 7-Elevens places like that around PCH, and also on Long Beach Blvd.

Thank you for reaching out to me and reviewing the grant. Here is an explanation for your questions. If I can be of further assistance, please reach out at any time. Thank you very much and have a wonderful day.

1. Can you confirm this location? If 3605 Long Beach Blvd #325 Long Beach CA 90807 is where you are currently operating from. Are clients able to come into the office? If so, what are the hours/days of operation?

Answer = Yes, this is the location we operate out of for Los Angeles County services. Yes clients are able to come by appointment. They can walk in as well and we see them if we are not in another appointment, or sometimes they can wait. As far as hours of operation, we're basically Monday through Friday 9 to 5. However, because we do appointments, we pretty much just go with the flow and try to accommodate people so if they need to talk to her after I get off work or something like that, etc. etc. or on the weekend. So we kind of work seven days a week.

2. How many people do you expect you can serve?

Answer= That's a hard question to answer... We're going for quality more than quantity. So we want to utilize the funds for both direct housing needs like rent relief, deposits etc., and tenancy, which includes helping people with life circumstances that might hinder them from continuing their housing. Such as not having gas for work or not having a job or needing boots for that job, etc. We feel that qualitative care is just as important as Quantitative. So we will serve all those who are in need as they come.

3. Have you worked with the Homeless Services Bureau, the Multi-Service Center, or any of its affiliates?

Answer= Yes, we work with the homeless service's bureau all the time getting supplies, and they come to our office with pallets full of goodies that we distribute to the LBC communities. We work with the Harm Reduction homeless service bureau to distribute harm reduction materials like from, test strips, condoms and syringes as well s things like hygiene clothes, food water drops etc. We also work with the Department of Health and am a member of the syringe Work Group and we are listed as a place you can come get harm reduction materials on the City of Long Beach website. We are also on the Reentry advisory committee with the city of Long Beach. And work with the Reentry community both returning an existing. Who often face barriers to housing upon returning.

4. Do you have access to Long Beach CES and, if so, through Long Beach Clarity HMIS? Or HMIS in general?

Answer= We do have access to Los Angeles HMIS. However, we do not have access to the Long Beach clarity and are hoping that this will help us gain access to that, so we can serve more people. Even if we do not receive this grant, any help furthering that endeavor would be greatly appreciated. We already have an account with HMIS, just so you know.

5. In the past year what kind of work/contract have you had? Are they with government agencies or homeless service providers? Can you list a few government partnerships that you had/have?

Answer= For the past year, we partnered closely with the Orange County Department of Health as a recipient of the Equity in OC Grant Initiative. We also worked with Cal Optima as part of their Nonprofit Health Care Academy where we were trained to understand all the different disciplines that go along with community social service work, such as housing, homelessness, the new CalAIM initiative, as well as the justice involved-and other communities that lack proper access to health-necessities-, including whole person care. And have been involved in the recent initiative to incorporate whole person care into the clinical realm. We are a part of the chip equity initiative in Orange County, helping to formulate a plan for the department of health to incorporate whole-person care services and equity into OC. This initiative was centered around Kalle and whole person, care and housing people through Cal AIM, and utilizing different resources in the community with an emphasis on housing first. We received \$69500 collectively, in funding from these projects.

6. How do you receive your clientele? Are they being referred to the program and/or is there street outreach?

Answer= Street outreach, word of mouth, referral system, we have a wide network of service providers that we outreach to daily. Through our marketing campaign. And also receive referrals from those service providers.

7. How did you hear about the Mayor's Fund?

I work with the city and get letters and emails from different people in the city all the time. I believe somebody emailed this to me. I think it was Andrew from the Harm reduction bureau.

Questions regarding cost Breakdown

8. On the cost breakdown sheet, what type of invoices/receipts can we expect to see under personal costs?

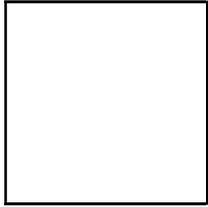

Answer= receipts from gas cards, or if we pay volunteers cash for their time. There will be an explanation document along with our receipt of the transaction, which would probably be in the form of a photo copy of the check or money order tied to document 2 that has the explanation.

ADDRESS 3605 Long Beach Blvd, #325, Long Beach, California 90807

Organizational Experience:

STATE THE NUMBER OF YEARS YOUR ORGANIZATION HAS BEEN SERVING PEOPLE EXPERIENCING HOMELESSNESS: 4

STATE THE NUMBER OF PERSONS YOUR ORGANIZATION SERVES IN AN AVERAGE MONTH: 300

DESCRIBE THE SERVICES YOUR ORGANIZATION PROVIDE: We provide advocacy services, case navigation, Narcan distribution, mutual aid, wound care, street medicine,

Harm reduction education and distribution, DMV verification for low-income individuals, housing navigation, peer support, client advocacy, community supports, CalWORKs Kids State Savings Account setup, and more. Our partnerships with other community-based organizations allow us to foster a strong network to better serve the community.

LIST ALL SUBPOPULATIONS SERVED BY YOUR ORGANIZATION:

Black, Latino, Indigenous , LGBTQ+, Youth , Tay, unhoused, historically disadvantaged communities, Veterans, seniors, youth, people struggling with substance use disorder, people recently released from incarceration, victims of domestic violence, low income

Request Information:

AMOUNT OF FUNDING REQUESTED: \$10,000.00

SUMMARIZE YOUR PROPOSED PROJECT:

Urban Social Services and Advocacy plans to use the proposed \$10,000 to fund immediate community needs of community members in historically disadvantaged communities, low income, people who are experiencing homelessness, youth and more.

The goal is to empower them and support their immediate concerns and move toward permanent solutions.

Community members will fill out a form and then be interviewed, where we will determine if they fulfill the criteria for receiving funding, so they can stay sustainable or become sustainable. Requests for costs are not limited to transportation costs to job interviews, vocational training, emergency grocery assistance, and clothing assistance for job interviews, rental assistance, stay in place, deposits, etc. Every claim will be handled on a case by case basis. And will circumvent the community members' situation to help support solutions..

ARE YOU APPLYING FOR FUNDS ON A REIMBURSEMENT OR PAYMENT IN ADVANCE BASIS? Advance Payment

FOR ADVANCE PAYMENT REQUESTS, PROVIDE JUSTIFICATION OF THIS REQUEST INCLUDING URGENCY AND NECESSITY:

Having funds upfront allows us to provide immediate assistance without diverting resources from other critical needs. This ensures we can swiftly address urgent situations, such as medical emergencies, housing crises, or support for victims of domestic violence. Immediate access to funding eliminates the two-month wait for reimbursement, enabling us to maintain consistent, effective support for our community's most vulnerable members.

Additional Questions:

IF YOUR REQUEST IS NOT FOR A ONE-TIME OR GAP NEED, WHAT IS YOUR PLAN TO GAIN FUNDING TO SUSTAIN THE PROGRAM?

Urban Social Services and Advocacy will continue to fund our programs through private donations, grants, and government partnerships into the future. The Mayor's Fund will enable us to increase our reach to serve more of the disadvantaged populations in Long Beach sooner.

WHAT WOULD BE THE IMPACT TO YOUR AGENCY/PROGRAM IF THE PROPOSAL IS NOT AWARDED FUNDING?

Urban Social Services and Advocacy is committed to serving the disadvantaged populations of Long Beach. In the event that we are unable to secure funding through the Mayor's Fund, we will continue to operate and provide services on a moderate scale.

WE AIM TO PROVIDE A CONTINUUM OF HUMAN CENTERED RESPONSES THAT RANGE FOR PROVIDING IMMEDIATE RELIEF TO GETTING PEOPLE INTO PERMANENT HOUSING. PLEASE DESCRIBE WHERE YOU SEE YOUR PROGRAM FITTING IN THE CONTINUUM OF RESPONDING TO HOMELESSNESS,

Urban Social Services and Advocacy aims to bridge the gap between immediate relief and long-term stability for individuals in historically disadvantaged dispositions. With the proposed \$10,000, we plan to address urgent needs for low-income individuals, people experiencing homelessness, and youth. Our goal is to empower them by supporting their immediate concerns while working towards permanent solutions.

**AND HOW YOUR PROJECT
ADVANCES THAT GOAL?**

Our program fits into the continuum of homelessness response by providing transitional support. While we do not offer permanent housing, we help individuals by funding transportation for job interviews, vocational training, emergency groceries, clothing for employment, rental assistance, and deposits. Each request is evaluated on a case-by-case basis, ensuring personalized assistance.

We also refer clients to appropriate community resources and help them navigate and advocate for themselves. By addressing urgent needs and supporting sustainability, our project advances the goal of transitioning individuals out of homelessness and towards permanent housing solutions.

**WHAT IS THE CURRENT ESTIMATED
ANNUAL BUDGET OF YOUR
AGENCY?**

\$23,000.00

**AS AN ESTIMATE WHAT
PERCENTAGE OF YOUR FUNDING
COMES FROM THE FOLLOWING
RESOURCES?**

10% private donations, 90% foundations/grants,

**WHAT OTHER EFFORTS OUTSIDE OF
THIS PROPOSAL HAS YOUR
ORGANIZATION MADE TO SECURE
FUNDING?**

Outside of this proposal, our organization has actively pursued various funding opportunities to sustain and expand our services. We have applied for grants from local, state, and federal agencies, as well as private foundations. Additionally, we organize fundraising events and campaigns to engage our community and raise awareness. We have also established partnerships with local businesses and corporations for sponsorships and donations. Our team continuously explores new revenue streams, including social enterprise ventures and service contracts with government entities and other organizations. These

efforts demonstrate our commitment to financial sustainability and our proactive approach to securing necessary funds.

Narcan Distribution Initiative: Through this program, we have distributed over 1,000 Narcan kits and conducted training sessions on overdose prevention, hopefully saving numerous lives.

Mutual Aid Drives: These drives serve hundreds of our community members and make sure they have the essentials they need and direct them to resources within the community.

Program Implementation with the city of Long Beach: Organization was pivotal in helping the city of Long Beach Form and create their nonviolent community response program similar to Cahoots or Denver star.

Toy Drives and Backpack give aways: partnering with other organizations, we have done totally drive and backpack giveaways that have helped numerous youth in our community with essential supplies I need for school as well as choice to help them flourish in their learning abilities.

Youth Empowerment Workshops: These workshops have engaged over 300 at-risk youth in leadership development, career planning, and educational support, fostering resilience and growth.

CalWorks Sign Ups: We have helped hundreds of students sign up for the 500 dollar state college savings plans.

Service Provider support: Collaborating and supporting other organizations so they can pursue their program endeavors including Employment housing peer support mutual aid and housing navigation.

PLEASE PROVIDE A SUMMARY OF PAST SUCCESSFUL EVENTS, PROGRAMS, PROJECTS, ETC.

Employment Training for Reentry Community:
Employment training, and A/V lighting for people
reentering the community. So they can gain a viable
career in the entertainment field.
