**Subject:** Re: SERRF Decommission -- Agenda Item #33, CC Meeting February 6, 2024

**-EXTERNAL-**

Dear Councilmember Duggan.

I read about the City's proposal to decommission SERRF in the Press Telegram and the Grunion Gazette. I was surprised that I had not heard about this issue before. If the facts in the article are correct, then the environmental and economic impacts are potentially significant. This decision should be a big deal.

I would like to learn about the environmental, technical, and economic analyses that have been conducted to justify decommissioning SERRF. In my opinion, the City should encourage public input by hosting meetings to inform the us of the merits and deficiencies of SERRF and other solid waste management options.

I respectfully request that the City Council delay its vote to decommission SERRF, until the public has been given a fair opportunity to provide feedback.

Sincerely,

Carolyn Carey
