ROAD REPAIR AND ACCOUNTABILITY ACT OF 2017

WHEREAS, Senate Bill 1 ("SB 1"), the Road Repair and Accountability Act of 2017 (Chapter 5, Statutes of 2017) was passed by the California Legislature and signed into law by the Governor in April 2017 in order to address the significant multi-modal transportation funding shortfalls statewide; and

WHEREAS, SB 1 includes accountability and transparency provisions that will ensure the residents of the City of Long Beach, California ("City") are aware of the projects proposed for funding in our community and which projects have been completed each fiscal year; and

WHEREAS, the City must adopt a list of all projects proposed to receive funding from the Road Maintenance and Rehabilitation Account ("RMRA"), created by SB 1 by resolution, which must include the scope, location, schedule, and useful life information of each proposed project, and the use of a Pavement Management System to develop the SB 1 project list to ensure revenues are being used on the most high-priority and cost-effective projects; and

WHEREAS, the City will receive an estimated Thirteen Million Three Hundred Thousand Dollars (\$13,300,00) in RMRA funding for part of the proposed Capital Improvement Program ("CIP") work in FY 26 from SB 1; and

WHEREAS, the City's street paving program is guided by the citywide Infrastructure Investment Plan ("IIP") and the Pavement Management Program ("PMP"), in coordination with other CIP projects, and with consideration for the most efficient use of public funds; and

WHEREAS, the funding from SB 1 will enable the City to continue essential road maintenance and rehabilitation projects, safety improvements, and increasing access and mobility options for the traveling public that would not have otherwise been possible without SB 1;

NOW, THEREFORE, the City Council of the City of Long Beach resolves as follows:

Section 1. The foregoing recitals are true and correct.
